HAWAII SKIN DIVER

21ST CENTURY STATE SPEARFISHING RECORD

Record fish must be captured within the **spirit** of spearfishing guidelines. The wild, unrestricted, uninjured fish must be speared with a muscle-powered device while breath-hold diving during daylight hours. The spearfisherman should be reasonably unassisted. Fish must be speared within the Main Hawaiian Islands. Eligible fishes include any *generally accepted* game fish. We are accepting retroactive applications for fish speared after Jan. 1, 2000. Records will be awarded only to fish that meet documentation requirements and can be independently verified.

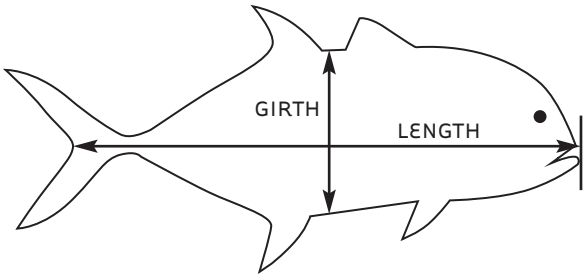
APPLICATION FORM

Please furnish as much information as possible.

1> Have fish weighed and measured in the presence of a witness who signs the official application or other acceptable weight slip.

2> How to weigh: Fish must be weighed at a fishing supply store and on an accurate certified scale (subject to verification). If fish is not weighed at a fishing supply store, fish must be photographed beside a ruler to show scale.



3> How to measure: Measure from the tip of the jaw to the middle fork of the tail (this records length). Measure around the fish where it is thickest (the records the girth).

4> Include a clear side view photograph of fish.

DETAILED DESCRIPTION OF THE EVENT
